

DS-Operator v14.0.0.1 Hotfix Readme

Build date: June 14, 2018

1.1 About this hotfix

The following packages have been distributed with this hotfix and must be installed on a system that is running Asigra Cloud Backup V14.

- DS-Operator_14_0_0_1.zip
- DS-Operator_FreeBSD_14_0_0_1.zip

1.2 Applying this hotfix

To apply this hotfix to a regular DS-Operator / DS-System installation:

1. Download and unzip the **DS-Operator_14_0_0_1.zip** hotfix file to a temporary folder.
2. Close the DS-Operator.
3. Rename the existing **dsoper.jar** file in the DS-Operator installation folder.
4. Copy the updated **dsoper.jar** file into the DS-Operator installation folder.
5. Start the DS-Operator and connect to the intended DS-System.

To apply this hotfix to a DS-Operator running inside an appliance:

1. Connect to the appliance with the CDPA GUI.
2. Click **Tools**.
3. Under **Upgrade Packages**, click **Browse** beside DS-Operator.
4. Select the **DS-Operator_FreeBSD_14_0_0_1.zip** hotfix file, and then click **Upgrade**. Wait for the upgrade process to complete.

1.3 Issues resolved in this hotfix

This hotfix resolves minor issues with the component.
